Tom Rutherford is responsible for the design and implementation of custom infrastructure and applications to support portfolio creation, analysis, and quality control at Research Affiliates. Research Affiliates is a global leader in smart beta, factor investing, and asset allocation. The firm creates investment strategies and tools based on award-winning research and delivers these solutions in partnership with some of the world's premier financial institutions.

Tom holds a MSc in Computer Science from the Georgia Institute of Technology, a BAsC in Computer Science and Psychology from the University of Lethbridge and has over a decade of professional software engineering experience. Prior to joining Research Affiliates, he designed software in the precision agriculture and neural interface device industries.
