Xi Liu, Head of Strategy Research, manages research and development activities for our systematic equity strategies, including data standardization, signal creation and implementation research, product design and customization, implementation validation, portfolio analytics, and risk attribution.

Previously, Xi worked as an associate in the Enterprise Data Group at Morgan Stanley, responsible for standardizing large-scale time-series data to facilitate investment decisions.

Xi earned a BS with honors in biomedical engineering from Zhejiang University in China, an MS in biomedical engineering from the University of Rochester, and an MS in statistics from Cornell University. Xi holds the Chartered Financial Analyst® designation with a membership in the CFA Institute and CFA Society Orange County.
