

Yu Tomita, PhD

Senior Vice President, Head of
Investment Systems, Equity Strategies

Yu Tomita leads the team responsible for internal application development for investment management, productionizing research models, advancing firm-wide process automation, and implementing core libraries for the research teams of Research Affiliates. Research Affiliates is a global leader in smart beta, factor investing, and asset allocation. The firm creates investment strategies and tools based on award-winning research and delivers these solutions in partnership with some of the world's premier financial institutions.

Yu received dual BS degrees in computer science and chemistry from Stony Brook University and a PhD in computational science and engineering from Georgia Institute of Technology. As part of her graduate studies and internship at Microsoft Research, she published seven peer-reviewed papers in fault-tolerant quantum computation.
